

OVER EIGHTY YEARS
OF EXCELLENCE
AND SERVICE

Harris[®]

World Class Decorating Products

PRODUCT CATALOGUE

WELCOME

Welcome to the Harris® catalogue which celebrates over 80 years of the UK's favourite decorating brand. The journey has been interesting, rewarding and often challenging, but throughout we have prided ourselves on the ability to maintain high quality standards, be forward thinking, and continually develop and improve our product offering. This has allowed us to remain at the top of our game.

Whether you have been with us from the start or you have joined us along the way, you'll know that our attention to both customer and consumer needs has enabled us to develop into a market leading company. Our dedicated sales force enables us to build strong relationships with you and provide the right product at the right price time and time again.

Building on the strength of the UK market the Harris® name is now recognised in over 100 countries worldwide. Our unique combination of a UK factory and a series of wholly owned Chinese factories has played a considerable part in our

domestic and international success. This strategy has ensured that not only are we able to provide you with the same high quality and innovative proposition that Harris® customers have come to expect, but that we can do this at globally competitive prices. The Harris® China factories together with our UK factory and head office in Worcestershire have grown into a 24 hour global operation that we are truly proud of.

I'd like to take this opportunity to thank all of our customers for your continued support over the years and we look forward to a prosperous future together.

Stuart Hobbs
*Sales and
Marketing Director*

A high-angle, close-up photograph of a man with dark hair, wearing a dark blue t-shirt, focused on painting a wall. He is using a paint roller with a black handle and a blue, textured roller sleeve. The wall is a light blue color. The lighting is bright, casting soft shadows. The man's expression is one of concentration as he looks down at his work.

PRODUCT INNOVATION SHOWCASE

Designs on the future

Whatever inspires your decorating it is important that you use the best tools for the job. At Harris® we continually strive to be at the forefront of innovative product design and create products that outperform market alternatives by being a pleasure to use, more durable and the route to an outstanding finish for decorators of all levels of experience. We achieve this through a focus on originality, ergonomics and aesthetics.

Examples of this philosophy can be found in new products such as the *ID Vanquish* and *ID Power Stripper*. Designed to utilise both hands in the decorating process these items allow the user to exert more pressure resulting in faster surface coverage, more control and therefore less fatigue.

The *ID Lock 'N' Roll* was specially developed to prevent the roller sleeve from slipping off the frame when in use, therefore minimising damage to paintwork and ensuring a flawless finish. Removal of the sleeve is no longer a messy and difficult job, simply release the sleeve with the lever. Stuart Hobbs, Sales and Marketing Director, said: "Every aspect of the *Lock 'n' Roll* has been cleverly designed to ensure it makes decorating easier for DIY enthusiasts of all abilities. Not only does it have a unique locking mechanism, but the ergonomically designed handle also offers greater comfort during use."

The *ID Gel* range demonstrates how we have once again, pushed the boundaries and industry norms through the use of new materials, design technology and manufacturing techniques. The unique gel

inserts and new handle shapes have been designed for optimum comfort in prolonged use and the full range of brushes, rollers and tools means you have a comfortable choice for every stage of the decorating process.

Decades of experience and innovative thinking have resulted in *ID – Intelligent Decorating*.

BRAND HIERARCHY

At Harris®, we understand that everybody's needs vary. From product quality and innovation to great value we have a decorating solution to please all types of decorator.

ID™

Decades of experience and innovative thinking have resulted in ID. A premium product offering that is designed and engineered to make the decorating process both easier and more efficient. Patented product designs and unique systems make these products consumer favourites.

Eclipse™

Developed for the decorator who wants to achieve a professional quality finish. These brushes are crafted with a combination of the finest natural bristle and advanced synthetic filaments to create a fantastic product suitable for all painting tasks.

EasyClean™

A selection of brushes and rollers that give a great finish and are also easy to clean. The distinctive 'Liquiflo' brush cleaning system and unique 'Tight Squeeze' roller cleaner are exclusive to Harris and provide a fantastic selling point.

Gold™

A good quality brush range that will create a fine finish with all paints and varnishes.

No Loss® Evolution

The UK's favourite brush celebrated for its 100% No Bristle Loss Guarantee. This is a product that has improved painting performance over its predecessor and you can be confident it will result in consumer satisfaction.

Contractor™

Hardwearing, tradesman quality tools for professionals and advanced DIYers. The Contractor range includes a Tungsten Carbide Scraper, Dust Sheets, Power Tapes, Knives and Protective Wear.

Premier™

An excellent range of brushes, rollers, hand tools and paperhanging equipment that provides a comfortable and innovative solution for every stage of the decorating process.

Classic™

Manufactured using traditional methods and materials such as natural bristle brushes and hardwood handled tools. A long-established brand that continues to be popular with DIY enthusiasts.

Taskmasters®

An extensive collection of decorating tools that provides great quality with exceptional value. The Taskmasters range includes Brushes, Rollers, Hand Tools, Paperhanging Equipment and other sundry items such as Knives, Abrasives, Dust Sheets and Protective Wear.

Woodcare™

Specialist brushes created to provide an excellent finish on both interior and exterior wood surfaces.

Tilemasters™

A complete selection of tiling products.

MERCHANDISING SOLUTIONS

Creating the right impression

Stocking great quality products is key to success but it is equally important to make them look good. Through clever merchandising techniques you can attract customers interest and capture impulse purchases.

We are also aware that the presence of a Harris® merchandiser in your store should be supportive of your attempt to create a pleasant visual store appeal, so we invest resources in the design and manufacture of not only our products but our display equipment too. All of our merchandisers are made to the highest standards and allow the range to be clearly displayed so that customers can easily find what they are looking for. We have a number of solutions available for showcasing your products, all free of charge with a minimum spend.

POINT OF SALE

Eye catching point of sale materials make your display look impactful and research proves that consumers are most likely to buy products if they can easily be found in-store.

With products such as the *ID Vanquish* we make sure that the key feature message is clearly communicated and this helps to maximise sales performance.

If you would like to find out more about how we could work with you to combine an innovative product offering with innovative marketing support, then please get in touch with one of our sales team.

ID ROUND

ID OVAL

Round - Especially suited to shaped profiles such as skirting, banisters, window frames, ledges, doors and furniture. The slightly domed heads make them great for edging work and cutting in.

Oval - These have similar qualities to round brushes and can be used for edging, trim, furniture and doors. They also provide a smooth finish when painting indoor walls, ceilings, wood panels and fencing.

ROLLERS

ID LOCK'N'ROLL

The ID™ Lock 'n' Roll frame is fitted with a unique locking clip which, when locked, forces the locking ring onto the inside of the roller sleeve, holding it securely in place whilst in use.

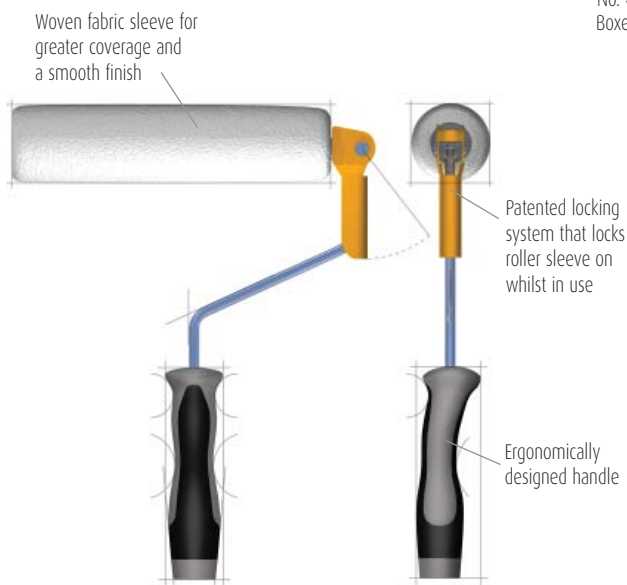

For use with water based paints on smooth and semi-rough surfaces.

ID™ Lock 'n' Roll

No. 4398
Boxed 10

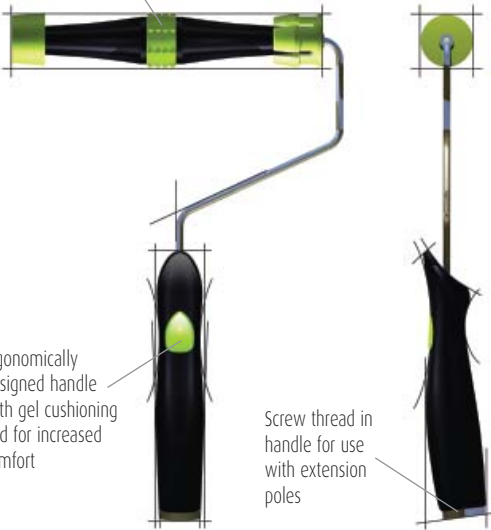

ID GEL

The ID™ Gel roller has a new ergonomic design incorporating gel cushioning for increased comfort. The frame also features a patented 'grip tyre' mechanism that prevents the sleeve from slipping during use and a screw thread handle for added stability when using with an extension pole.

Suitable for use with all 9" x 1.5" diameter roller sleeves.

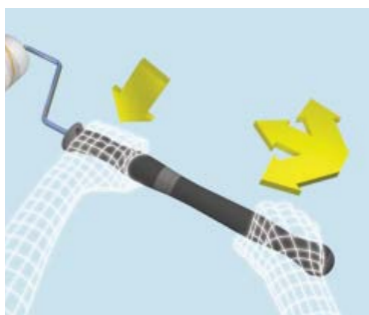

Patented 'grip tyre' mechanism for reduced roller slippage

ID VANQUISH®

The ID™ Vanquish® has a unique two-part handle that allows you to apply pressure with one hand, whilst leaving the other hand free to direct the roller effortlessly.

The frame is fitted with six wires, rather than the conventional four or five, creating greater tension to hold the sleeve in place. The advanced fabric, larger diameter roller results in 50% more coverage than conventional 9" x 1.5" sleeves and the slower rotational speed significantly reduces splatter.

This means less loading and reduced painting time so you'll feel a lot less tired when finished!

For use with water based paints on smooth and semi-rough surfaces.

ID™ Vanquish® Cage Frame

ID™ POWERCOAT ID™ FLEXIROLLER

ID™ Powercoat features a 2.25" diameter woven fabric sleeve that provides 30% more coverage than conventional 1.5" rollers, and less splatter.

The six wire cage frame creates greater tension on the sleeve to reduce roller slip.

The flexible glass-fibre shaft on the ID™ Flexiroller means that it is perfect for tasks involving hard to reach areas.

Harris[®]

VICTORY

Harris[®]

VICTORY... AN INTRODUCTION

Harris have manufactured and supplied a selection of household brooms for decades, which have been sold to our DIY, trade and hardware supplies customer base as an extension to our market leading range of decorating sundries.

Successful as our concise selection of brooms have been, we have recognised the need for a more complete product selection to fulfil the needs of a wider potential market.

2008 saw the purchase of John Palmer Brushes Ltd, and the acquisition of the Victory brand, which marks the beginning of a bold strategy to develop a complete, price competitive and high performance range of products to meet the needs of both users and retailers of high quality brushware.

With the commercial assets that Harris already possesses in the form of advanced warehousing facilities, logistics, global sourcing, sales and marketing capability, we will breathe new life into the well deserving Victory brand.

With new investment and having listened to our customers we will go on to develop a range and provide a service to our customers which is truly market leading.

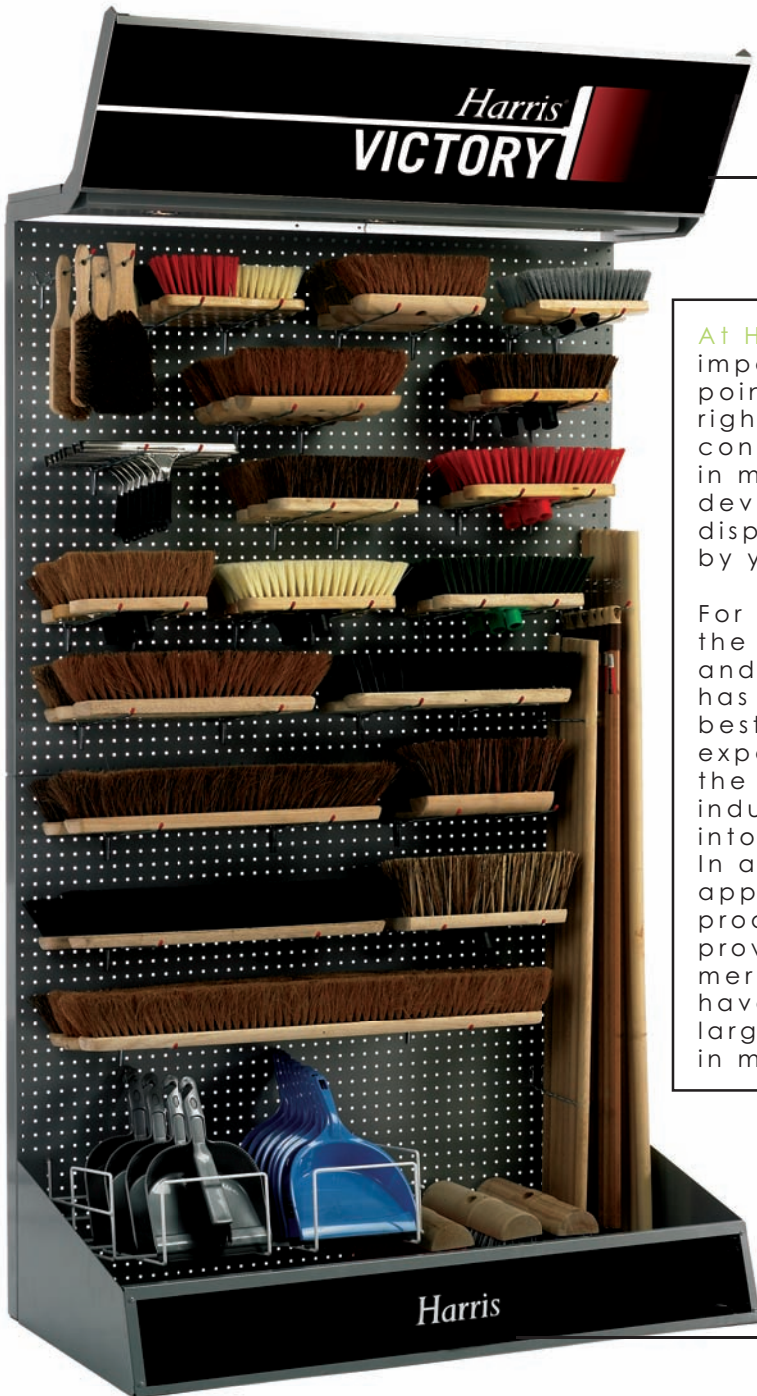

We assure all customers both old and new, that HARRIS VICTORY will be an outstanding and loyal supply partner.

Stuart Hobbs
Sales & Marketing Director

MERCHANDISING

At Harris we understand the importance of good quality point of sale and creating the right environment to encourage consumer purchasing. With this in mind we are constantly developing new merchandising displays which can be utilised by you; our customer.

For many years Harris has been the UK market leader in painting and decorating sundries and has provided some of Europe's best quality tools. The experience Harris has gained in the painting and decorating industry will now be rolled out into the housewares market. In addition to the innovative approach towards quality and product development Harris also provide high quality merchandising displays which have been developed with both large and small retailers in mind.

Merchandisers

Using a peg board hanging system for maximum display flexibility, these merchandisers are the ultimate in store displays and come complete with full branding. Available in 2ft and 4ft formats.

MERCHANDISING

We understand that many retailers prefer to provide their own displays Harris are more than happy to discuss your specific requirements and provide branded point of sale material for displays already in situ. To discuss this further simply contact your sales representative for more details.

We understand creating the right store is vital to suit your customer's individual needs and we ensure the displays we provide have been designed with input from retailers and our representatives alike.

Dump Bins

The dump bin has for many years been a favourite with many retailers due to its lightweight frame and versatility for use within the store environment.

Available in a powder coated white wire frame our dump bin comes with two separation levels to ensure products stand upright therefore remaining tidy and requiring little or no attention by store staff. Measuring 410mm x 400mm these displays come with customised sleeves to further enhance the aesthetics of the display and the store in general.

BROOM GUIDE

Your guide to choosing the right broom for you.

-For use in wet conditions

-For use in dry conditions

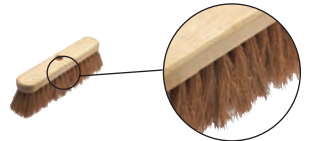

BASSINE ☀️

Bassine is a natural material made from dried palm leaves. It provides good sweeping performance, but can distort if used wet.

☀️ PLAIN COCO

A by-product of coconut harvesting, Natural Coco brushes are softer compared to other natural brooms, but still provide good sweeping characteristics.

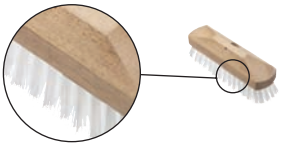

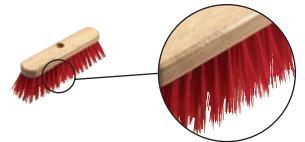

POLYPROPYLENE ☀️💧

Light and hard-wearing, Polypropylene is great for general indoor use but can also be used outside and in wet conditions.

☀️💧 PVC

PVC is hard-wearing and provides excellent sweeping performance. Ideal for use inside and out and fine for use in water.

NYLON ☀️💧

Nylon has excellent sweeping and wearing qualities and is used in a considerable number of household brushes.

☀️💧 UNION MIXTURE

Combining the benefits of synthetic and natural materials, union brushes are a combination of Polypropylene and Bassine to offer both resilience and water holding capacity and are normally used as deck scrubs and scrubbing brushes

BASS/CANE MIXTURE ☀️

Cane combined with Bassine provides a natural brush that has the good sweeping characteristics of Bassine with added stiffness, thanks to the Cane. Best used dry as can distort if used wet.

POLYESTER ☀️💧

Polyester has excellent wearing and sweeping qualities. Brushes filled in Polyester are used in hospitals, food factories, dairies and all areas where hygiene is of primary concern.

BLACK COCO ☀️

All the benefits of the Natural Coco but with a dye added to change the aesthetic appearance of the filament.

FLAT STOCK BROOMS

With pre-drilled holes for easy assembly these wooden backed brooms are available in a variety of sizes. Designed for use in small to medium size areas flat stock brooms are available with an assortment of filament types to suit indoor or outdoor use and wet and dry conditions.

GREAT VALUE EVERY TIME

Product Guide

A winning range of
exceptional value
decorating products

extra
GREAT VALUE EVERY TIME

Extra is a collection of entry level products designed to integrate quality with great value.

Since its introduction in 2005, the **Extra** range has been constantly growing and improving to emerge as a competitive collection of quality decorating products and hand tools.

Unlike other entry-level choices, **Extra** forms a carefully branded initiative, providing effective visual impact for cost-effective products.

Extra targets the needs of the cost-conscious consumer and represents **great value every time**.

Merchandising and Display

Effective and space saving shelf-ready packaging and design

A clear and impactful range display
